Dear Parents / Guardians,

SUSPENSION OF SCHOOL-BASED HPV IMMUNISATION CATCH-UP PROGRAMME FOR SECONDARY SCHOOLS

1. As all secondary school students will shift to full Home-Based Learning from 8th April 2020, all health screening and immunisation programmes in schools will be temporarily suspended.
2. Our service provider will work with the respective schools to reschedule visits to conduct the HPV immunisation in schools.
3. The Health Promotion Board will continue to closely monitor the evolving COVID-19 situation and take guidance from the Ministry of Health's advisories.
4. If you have any further enquiries, please call the Student Health Centre at 6435 3895 on Mondays to Fridays between 8am and 5:30pm, or send an email to HPB_SHC@hpb.gov.sg. We seek your kind understanding during this period.
5. Please stay safe and well.

Thank you.

Yours sincerely,
